2.09 Reporting period

The accounting period of the company covers one financial year from 1st July to 30th June consistently.

2.10 Principles of consolidation and disclosure of interest in other entities

Subsidiary is an enterprise controlled by the parent entity. Control exists when an investor is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those re-turns through its power over the investee. The financial statements of subsidiary are included in the consolidated financial statements from the date that control commences until the date that control ceases. The consolidated financial statements have been prepared in accordance with IFRS 10 Consolidated Financial Statements.

The group eliminates in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full).

Non-controlling interests

The group presents non-controlling interests in its consolidated statement of financial position within equity, separately from the equity of the owners of the parent.

The group attributes the profit or loss and each component of other comprehensive income to the owners of the parent and to the non-controlling interests. The proportion allocated to the parent and non-controlling interests are determined on the basis of present ownership interests.

Premier Power Generation Limited is a subsidiary company of PCML. The Company has made 96% investments in its subsidiary. PCML is exposed to and has rights, to variable returns from the subsidiary and also has the ability to affect those returns through its power over PPGL.

National Cement Mills Limited is an associate company of PCML. The company owns 18.67% of the equity share capital in NCML prior to current year PCML exerts control on NCML with remaining 60% voting rights through common directorships. The management has decided to consolidate the financial statements of NCML in accordance with IFRS 10 for reporting purpose up to 30-06-2017. In the year 2017-2018 there was a major change in the shareholding position of NCML and directorship and PCML lose control in the decision making of NCML through voting right hence the company decided not to consolidate the financial position of NCML. As per equity method (Ref.IAS-28) share of profit from associate company's shown in the "Consolidated statement of profit or loss and other comprehensive Income" and is added with investment in Associate.

3.00 Summary of significant accounting policies

The specific accounting policies selected and applied by the company's directors for significant transactions and events that have material effect within the framework of IAS-1 "Presentation of Financial Statements", in preparation and presentation of financial statements have been consistently applied throughout the year and were also consistent with those used in earlier years.

For a proper understanding of the financial statements, these accounting policies are set out below in one place as prescribed by the IAS-1 "Presentation of Financial Statements". The recommendations of IAS-1 relating the format of financial statements were also taken into full-consideration for fair presentation.

3.01 Consistency

The accounting policies and methods of computation used in preparation of financial statements for the year ended 30 June 2019 are consistent with those policies and methods adopted in preparing the financial statements for the year ended 30 June 2020.

3.02 Transactions in foreign currencies

Foreign currency transactions are recorded at the applicable rates of exchange ruling on the date of transactions.

Other monetary assets & liabilities, if any, denominated in foreign currencies at the Balance Sheet date are translated at the applicable rates of exchange ruling at that date and the related exchange differences are charged off as revenue expenditure. Effects on cash flows has been shown in the statement of cash flows of the financial statements.

3.03 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

3.07 Impairment

3.07.01 Non-derivative financial assets

Financial assets not carried at fair value through profit or loss, loans and receivables are assessed as and when required to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

3.07.02 Non-financial assets

The carrying amounts of the group's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the recoverable amount of the asset is estimated. An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit (CGU) exceeds its estimated recoverable amount.

3.08 Provisions, contingent liabilities and contingent assets

A provision is recognized in the balance sheet when the Company has a legal or contractual obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Contingent assets are not recognized.

3.09 Borrowing costs

Interest and other costs incurred by the company in connection with the borrowing of funds are recognized as expense in the period in which they are incurred, unless such borrowing cost relates to acquisition / construction of assets in progress that are capitalized as per IAS 23 "Borrowing Costs".

3.1 Taxation

3.10.1 Current tax

PCML has been maintaining provision for taxation @ 25% as per Income Tax Ordinance, 1984. Company also enjoys tax exemption on export sales as per Sixth Schedule (Section 28) of ITO 1984.

3.10.2 Deferred tax

Deferred tax liabilities are the amount of income taxes payable in the future periods in respect of taxable temporary differences. Deferred tax assets are the amount of income taxes recoverable in future periods in respect of deductible temporary differences. Deferred tax assets and liabilities are recognised for the future tax consequences of timing differences arising between the carrying values of assets, liabilities, income and expenditure and their respective tax bases. Deferred tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantially enacted at the balance sheet date. The impact of changes on the account in the deferred tax assets and liabilities has also been recognised in the profit and loss account as per IAS-12 "Income Taxes".

3.11 Share capital

Paid up capital represents total amount contributed by the shareholders and bonus shares issued by the company to the ordinary shareholders. Holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to vote at shareholders' meetings. In the event of a winding up of the company, ordinary shareholders rank after all other shareholders and creditors are fully entitled to any residual proceeds of liquidation.

3.12 Employee benefits

The company maintains both defined contribution plan and defined benefit plan for its eligible permanent employees.

3.13.01 Defined contribution plan

The company maintains a recognized provided fund @ 7% of basic pay (Equally contributed by employee & employer) for all eligible permanent employees from 1st day of July 2010. The said fund is managed by a duly constituted five member board of trustees.

3.13.02 Defined benefit plan (Gratuity)

The company maintains an unfunded gratuity scheme, provision in respect of which is made annually for the employees. Gratuity payable at the end of each year are determined on the basis of two (2) times of last month basic salary and payment is to be made on the basis of following rules and regulations of the company.

3.13.03 Other benefits

The company also making a provision for Workers' Profit Participation and Welfare funds @ 5% of net profit before tax as per Labour Act 2006.

3.14 Revenue recognition

In compliance with the requirements of IFRS 15: Revenue from the sale of goods (Cement) is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates. Revenue is recognized when the following criteria meets:

- I. Identify the contract with customer
- II. Identify the performance obligation in the contract
- III. Determine the transaction price
- IV. Allocate the transaction price to performance obligation
- V. Recognize the revenue

We have recognized our revenue by satisfying the criteria provided above.

3.15 Earnings per share

The company calculates its earning per share in accordance with Bangladesh Accounting Standard (IAS) - 33 which has been reported on the face of Statement of Comprehensive Income.

Basis of earnings

This represents earning for the year attributable to ordinary shareholders and Non-Controlling shareholders. As there were no preference shares requiring returns or dividends, the net profit after tax for the year has been considered as fully attributable to the ordinary shareholders.

Basis of earnings per share

This has been calculated by dividing the basic earnings by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share

No diluted earnings per share is required to be calculated per year as there was no scope for dilution during the year.

3.16 Duty drawback

Duty drawback claimed on export sales is adjusted against cost of imported raw materials.

3.17 Events after the reporting period

Events after the Reporting period that provide additional information about the company's positions at the balance sheet date are reflected in the financial statements if any.

3.18 Comparative information and re-arrangement thereof

In accordance with the provisions of IAS-1: Presentation of Financial Statements, Comparative information has been disclosed for all numerical information in the financial statements and also the narrative and descriptive information where it is relevant for understanding of the current period's financial statements.

Leasehold assets and leases

Assets held under finance leases are recognised as assets of the Company at their fair value at the date of acquisition or, if lower, at the present value of the minimum lease payments. The corresponding liability is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly against income.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. Leasehold assets have been capitalised this year because of lease term of all assets have been completed by this year.

Leases:

IFRS 16 introduces significant changes to lessee accounting by removing the distinction between operating and finance lease and requiring the recognition of a right-of-use asset and a lease liability at commencement for all leases, except for short-term leases and leases of low value assets when such recognition exemptions are adopted. In contrast to lessee accounting, the requirements for lessor accounting have remained largely unchanged.

"The Group" has applied IFRS 16 using the cumulative catch-up approach. "The Group" utilized the option to measure the right-of-use asset at an amount equal to the lease liability in accordance with para C8 of IFRS 16 at the date of initial application. This approach does not require restatement of comparatives, which continue to be presented under IAS 1 and IFRIC 4.

IFRS 16 changes how the Group accounts for leases previously classified as operating leases under IAS 17, which were of balance sheet. Applying IFRS 16, for all leases (except as noted below), the Group:

- a) Recognises right-of-use assets and lease liabilities in the consolidated statement of financial position, initially measured at the present value of the future lease payments, with the right-ofuse asset adjusted by the amount of any prepaid or accrued lease payments in accordance with IFRS 16:C8(b)(ii);
- b) Recognises depreciation of right-of-use assets and interest on lease liabilities in the consolidated statement of profit or loss;
- c) Separates the total amount of cash paid into a principal portion (presented within financing activities) and interest (presented within financing activities) in the consolidated statement of Cash flows.

Under IFRS 16, right-of-use assets are tested for impairment in accordance with IAS 36. For short-term leases (lease term of 12 months or less) and leases of low-value assets, the Group has opted to recognize a lease expense on a straight-line basis as permitted by IFRS 16. This expense is presented in profit or loss. The Group has used the following practical expedients:

- The Group has applied a single discount rate (9%) to a portfolio of leases with reasonably similar characteristics.
- The Group has elected not to recognize right-of-use assets and lease liabilities to leases for which the lease term ends within 12 months of the date of initial application.
- The Group has excluded initial direct costs from the measurement of the right-of-use asset at the date of initial application.

3.04.02 Capital work-in-progress

Property, plant and equipment under construction/acquisition is accounted for as capital work-in-progress until construction/acquisition is completed and measured at cost initially.
